

Regulatory and Compliance Information

WEEE Compliance (Disposal)

This symbol indicates that this product should not be disposed of with regular household waste. To prevent harm to the environment and human health, please dispose of this device at a designated collection point for the recycling of waste electrical and electronic equipment (WEEE).

Medical Disclaimer

The DEXDIA GX is a fitness and information device. It is not a medical device as defined by FDA, EU MDR, or other medical regulations. The data provided is not intended for the diagnosis, treatment, mitigation, or prevention of any disease or health condition. Always consult a licensed medical professional for health-related concerns. Dexterity Diagnostics is not liable for any injuries or issues that may arise from the use or misuse of this product.

CE - Declaration of Conformity

This device complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. The most recent and valid version of the DoC (Declaration of Conformity) can be viewed at dexdia.com/regulatory.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by Dexterity Diagnostics, the party responsible for compliance, could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The radio frequency (RF) transmitter in this device has been evaluated and shown to be compliant with the FCC's RF exposure requirements for portable devices.
